What's a Scratch Sheet?

Scratch Sheets give a good indication of who is thinking about going to an event. It helps the organizers plan and prepare for the event. LTYC has set up a Scratch Sheet in Google documents for its events. If you expect to be at some of our upcoming events, take a few moments to step through the different Scratch Sheets and let us know to expect you. Don't worry about last minute change of plans, Scratch Sheets are only an indication of your intentions. If you need crew, want to crew, would like to help with the social, or have some other creative idea, just list it in the Scratch Sheet, available from the home page or the LTYC Website. **Posting regrets is encouraged as it helps in planning, especially for the larger events.**

Lake Townsend Yacht Club members & friends: A CHALLENGE TO YOU ALL

HALLOWEEN on the TOWNSEND 3 is just around the pumpkin. This is a fund-raiser that LTYC chose to get involved in. It was the right thing to do: raise money for breast cancer research and have fun sailing. This is the type of regatta for ALL OF US ... and it's tax deductible.

Sign up NOW ... before 9/25 and your boat's name will be printed on the collectible T-shirt.

Sign up NOW ... to enjoy the Oktoberfest dinner of bratwurst, sausage, German potato salad, "drinks" and much, much more.

Sign up NOW ... I would like to have more Flying Scots (and other boats) from LTYC than Wayfarers from Canada.

Go to earlier.org to register NOW ...

WANTED

HOT III is looking for sponsors, prizes, and auction items for this year's regatta.

It is scheduled for
October 25th & 26th, 2014.

Donations of \$25.00 to \$5000 are being accepted; money or prize auction items are greatly appreciated.

Please contact Jim Schwartz at 282.9552 or detroito91@aol.com.

ARE YOU READY FOR THIS JETTY?

Before the current jetties were built (circa 1986) there was a jetty in the first small cove to the immediate left as you exit the docking area. Most of the old jetty was knocked down but there is still a pile of rocks and rubble left that can cause issues with some centerboards and rudders. Even now you can still see a small pile of rocks in that first cove which extend out to the big pile. There are also rocks in between the two but they are just barely under the water.

In photo A the old jetty doesn't appear to extend very far out. But, in photo B you can tell by the yellow and red sight lines that if you are just a little way into that big cove and sail straight towards the jetty you may literally hit rock bottom. I know because my Scot's 4' centerboard and 2' rudder both found it recently. Problem is, the location of is not very easy to determine unlike these photos which I shot during a drought in June 2009. There was a warning buoy out there for many years but it disappeared about two seasons ago and has not been replaced.

THIS PART IS ALL ABOUT YOU ...

Interested in working with the Club Socials next year? What about assisting with Sailing Classes?

Please email joleenrasmussen@embarqmail.com

The Feather

I for one have had a full summer of sailing. So much so that I've missed the newsletter deadline for the past two months. In July I was in Ohio for the Windmill Nationals. We had 37 boats on a lake smaller than Lake T, and you think we have shifty winds! I had a couple very good races, and finished 10th overall. Then in August, I went to visit Corky and Pam Gray in Maine. I spent a week with them on their Tartan 34, Lara, cruising among the beautiful islands. Lots of classic schooners and classic wooden boats. We spent a couple nights at the harbor in front of the property of Wood Boat Magazine. Definitely a week to remember.

Other club members have been busy as well. George Bageant has been cruising the US on his motorcycle. Eric Rasmussen won the Isotope Nationals for the 8th time in 10 years. Holly Deuterman has started school at College of Charleston and made the big boat sailing team. And Dalton Cox has completed his repair of one of the Club Tanzers as well as one of the City's Aqua Finns.

Kudos go out to Jim Irvin for leading the club through the most aggressive sailing instruction season to date. We held 12 weeks of instruction consisting of 4 beginning classes and 2 intermediate classes for both Juniors and Adults.

In order to give all of these new sailors a chance to participate in LTYC activities, I would like to encourage

as many folks as can to come out to the lake on the 4th Saturday of this month. Bring your boat and take some of the new sailors out. We will also have the club boats available for mentoring our new sailors, or anyone else who wants to hone their skills. Sailing starts when folks show up (10ish) and continues to around 3 when we put the boats away and head up to Shelter 10 for some socializing.

HOT-3 will be here soon! The fun starts Friday Oct 24 with racing on Oct 25-26. Now is the time to register at the Earlier.Org website. Early registrations will get their boat's name printed on the sleeve of this year's collector's t-shirt. Start gathering sponsors for your boat and the event. Our goal is to raise \$10,000!

As we approach the end of 2014 it's time to start thinking about next year's club officers and board members. If you are interested in being a part of the club board, or have someone in mind to nominate, please talk to one of the existing board members.

Call People. Go Sailing

In an effort to involve more sailors in the Club's Sailing Events and Racing Programs, this "Available to Crew" list is published in each newsletter. If you have a boat and would like to participate in the Summer or Frostbite Race Series, call one of these folks for your crew. Alternatively, if you need a cruising partner on your boat or would like to team with someone on one of the city sailboats for a day sail or a race, contact someone on this list. If you are interested in crewing and would like to add your name to the list, please let Joleen know. Joleen has the best intentions of calling each new member if she doesn't hear from them to encourage them to sign up on the Crew or Race Committee List. (See the Help Lines below).
